15 APRIL 2020

Dear Parents

We, as a governing body, are thoroughly aware of the difficult time and impact the COVID-19 lockdown has on our community. Our teacher corps is busy interacting with every possible tool, from SMS, WhatsApp, and emails with learners to try to continue teaching our children. We thank everyone for your patience and cooperation.

We, as parents, must pay our school fees. We have commitments to meet, however, be assured that we are saving and cutting costs where possible. We know that there some may experience financial problems during this time and maybe after the lockdown, please contact the office so that we can plan.

Be assured that our school is still striving to do the best for your child's school education.

Once the school reopens there will be a policy of **NO MASK NO ENTRANCE** at our school gates.

Please be responsible during the lockdown period.

Kind regards.
