28 APRIL 2020

Dear parents,

We trust that you are safe in these challenging times.

We would like to share the following important information with you:

The Minister of Basic Education was scheduled to make an announcement yesterday afternoon but was postponed until "later this week". No formal announcement was made by the government with regards to the re-opening, but we will keep you up to date.

A meeting with the school management team has already taken place where the safe re-opening of the school as well as the safety of the learners have been discussed. The sanitation of the school premises has also been discussed and we are doing everything in our power to ensure that when the school must open, we are ready and prepared. Please remember about the new regulation that no learner without a mask will be allowed on our school premises.

Last of all, I would like to thank each parent for your effort with your child/children to make sure that he/she are doing their homework as circulated on the Whatsapp-groups and not falling behind with academic work.

May you all be blessed in this time of trouble.

---
