Geagte Ouers

Vakkeuses is dikwels vir leerders en hulle ouers 'n bron van kommer en daarom wil ons graag 'n paar kwelvrae beantwoord.

Vanaf 2021 neem Gr 8 en 9 leerders die vak: Tegnologie. Dit behels 'n unieke vakinhoud en voldoen aan standarde soos voorgeskryf in die KABV dokument. Hierdie vak verskaf op gebalanseerde wyse blootstelling aan verskeie aspekte van tegnologie en tegnologiese ontwikkeling. Bykomend tot Tegnologie sal leerders in Gr 8 Rekenaargeletterdheid en in Gr 9 Hotelhouding en Spyseniering as vakke neem.

Wanneer leerders aan die einde van Gr 9 vakkeuses moet uitoefen, sal hulle dus reeds bekendwees met Verbruikerstudies, Rekenaartoepassingstegnologie, Ingenieursgrafika en Ontwerp sowel as Inligtingstegnologie. Vanaf 2021 mag leerders ook Landboutegnologie en Geografie as vakke vir Gr 10 kies.

Ons vertrou dat bogemelde inligting vir beide ouers en leerders gemoedsrus sal gee ten opsigte van vakkeuses.

Vriendelike groete.

10 MARCH 2021

Dear Parents

The choice of subjects is often a matter of concern for both learners and their parents. We would therefore like to clear up several issues.

From 2021 all grade 8 and 9 learners will take the subject: Technology. It comprises of a unique subject content and complies with the standards prescribed in the CAPS document. In Technology, learners are taught about various aspects of technology and technological development. In addition to Technology, learners will also take Computer Literacy in grade 8 and Hotelkeeping and Catering in grade 9.

Therefore, towards the end of grade 9 when learners have to choose subjects, they will already have acquired a basic knowledge of subjects such as Consumer Studies, Computer Application Technology, Engineering Graphics and Design and Information Technology. From 2021 learners may also choose Agricultural Technology and Geography as subjects in grade 10.

We trust that the information mentioned above provides peace of mind regarding subject choices to everyone concerned.

Kind regards

MNR J SMITH
